JOSHUA CORBE SAJOR

Full Stack Software Developer

Philippines · Remote | +63 949 341 9857 | joshuasajor28@gmail.com

Portfolio joshua-sajor-portfolio.vercel.app | **GitHub** github.com/AsianDoesCodin

PROFESSIONAL SUMMARY

Full Stack Software Developer with six years of project-based experience and 100+ paid commissions. Builds production websites, multi-tenant systems, commerce, and API integrations. Four years of manual coding before AI adoption underpin hands-on debugging, custom AI workflows, and end-to-end delivery.

PROFESSIONAL EXPERIENCE

Full Stack Software Developer May 2026 – Present

Confidential employer | Arizona, USA · Remote

- **Built and deployed a 55-page website** that achieved a Lighthouse SEO score of 100 and first-page Google rankings across eight target Arizona service areas. Implemented city-specific content, JSON-LD, canonical URLs, sitemaps, internal linking, and responsive UI.
- Developed and deployed an internal operations platform: multi-tenant CRM, job pipelines, tasks, proposals, forms, files, client portals, messaging, calendars, backups, and real-time updates. Built with JavaScript, Vite, Supabase/PostgreSQL, Row Level Security, and Vercel.
- Troubleshot live systems and supported business workflows through client email drafting, Google Drive and Forms configuration, and Zoom setup.

Freelance Full Stack Software Developer 2020 – Present

Self-employed | Remote

- **Delivered 100+ fixed-price commissions** from requirements and scoping through development, deployment, revisions, and client handoff.
- Built websites, dashboards, automation, API integrations, standalone storefronts, and Shopify shops using Supabase, Firebase, AWS, Vercel, Netlify, and GitHub workflows.
- Created custom plugins, MCP integrations, and reusable AI skills tailored to team workflows; manually reviewed, tested, and debugged AI-assisted code before delivery.

TECHNICAL SKILLS

Languages & frontend JavaScript, TypeScript, HTML5, CSS3, SQL, Python, React, Astro, Vite, responsive UI
Backend & data Node.js, Supabase/PostgreSQL, Firebase, REST APIs, authentication, Row Level Security
Cloud & commerce AWS, Git/GitHub, Vercel, Netlify, Shopify, custom e-commerce
